NEXT CHALLENGER FOR THE CUP. Eustace Jameson, M. P., Said to The New York Evening Post says: "There

a strong probability that the next chalenger for the America's cup will be Major Eustace Jameson, M. P. He is a warm friend of Sir Thomas Lipton, and witnessed the races between Shamrock and Columbia. Should Major Jameson challenge he will have the Shamrock for a trial horse. Anybody who challenges will be welcome to the yacht for such a purpose, but Major Jameson would be particularly so, because of the friendship existing between him and Sir Thomas. The Jameson boat would very probably be built from a Watson design, and, it is said, would most certainly be built in Belfast, ex-Lord Mayor Pirrie, the head of the firm of Harland & Wolff, being quite welcome to undertake the work.

"The name even of the boat has been discussed, and while some of the mutual friends of both the major and Sir Thomas Lipton were in favor of having it called Shamrock II, the most favored name was Hibernia. Major Jameson might challenge through the Kingstown Royal Yacht Club, but will probably send it, if at ail, through either the Royal Ulsters or the Royal Corks." friend of Sir Thomas Lipton, and witnessed

Gov. Candler Discusses Mob Violence

The Georgia legislature met in regular ession yesterday. After organization had been perfected the message of Governor Candler was read. The chief executive devoted several paragraphs of his message to the twin subjects of crime and mob violence. He referred in general terms to the crimes in different sections of the state, taking the position that the unusual amount of crime by lawless negroes and the consequent unprecedented amount of mob violence can be laid at the door of intermeddling and irresponsible fanatics and fools who do not know anything of the situation in the south, nor the real relations of the people of the two races.

He believes that almost, if not all, of these criminal acts on the part of the lawless negroes can be traced to the people whose utterances in their newspapers and through incendiary letters sent to negroes in the south have greatly aggravated a situation which they profess to deplore. Candler was read. The chief executive de-

FIELDING AVERAGES

President Young Promulgates His Table of Percentages.

CONTESTS ON THE FOOT BALL FIELD

Local High School and College Teams Play.

CURRENT SPORTING NOTES

President Young of the National League has finally prepared the fielding averages of the players in the big league, and a good line can now be had on the men filling the different positions. Brodie of Baltimore leads the entire procession with an average of .982, and Jimmy Slagle is the first Washingtonian to show to the front, with an average of .950. Then follows "Buck" Freeman, with .934 and O'Brien has .922 and Barry, .912.

Of the first basemen Bill Clarke, who was with Pittsburg for a couple of months, fielded well enough to lead the league at the first corner of the diamond, with an average of .988, and Dan McGann is close up with the figures .986. Reitz is credited with leading the league at second base, his figures being .976, while Bonner secured but .943. That sterling player, Lave Cross of St. Louis, leads the third basemen, with an average of .957, while Mercer is next to last in the position with the figures .853. As was anticipated, George Davis of New York proved to be the best short stop, his average being .944, while Senator Padden did very well in securing the percentage of Cincinnati claims the best catcher in

Cincinnatic claims the best catcher in Peitz, who leads the league with a per-centage of .955, but Kittridge, with an in-jured limb, was close up, his figures being .941. Following are the fielding averages of the National League in detail: First Basemen.

PLAYER'S LEG BROKEN.

A Warm Contest Between High School

The foot ball game at National Park yeserday afternoon between the Western and Business High Schools was of a very warm character and finally resulted in time being called with neither side having secured a touchdown or goal. During the game two players were hurt, John Jordan, jr., and John Smoot, both of the Westerns, be-

famous for the magnificent buying chances. Tomorrow we'll give bargains that bear the plain imprint of cost. We are not only giving as big-but even better bargains than others. We'll charge your

ON THE FOOT BALL FIELD. Superior Weight Won in the George-

tators gathered around the Georgetown gridiron yesterday afternoon to witness the game between the Baltimore Medical College eleven and a team wearing the blue and gray. Defeat for Georgetown was almost a foregone conclusion, but it was hoped that the improvement in defensive play would enable the local men to play a very close game with the Marylanders, notwithstanding the superior weight of the latter. The issue was never in doubt from the commencement of play, the superior weight telling in all the rushes, and after viewing the game the onlookers were satisfled that the Georgetown representatives had done so well in holding down the score

EASTERNS DEFEATED. Match Won by the Maryland Agricul-

tural College.

The Maryland Agricultural foot ball team met and defeated the Eastern High School at College Park yesterday in two twentyminute halves by a score of 27 to 0. The vast improvement in the college eleven was a gratifying feature, its interference being perfect, and should the same improvement continue, some of the colleges will have a hard proposition on their hands. The work of Robertson, right half back, and Carroll, left half back for the former, was the feature of the game, the latter making a brilliant run of fifty yards through guard and tackle, resulting in a touchdown. Mr. Harding, a former graduate, who has been coaching the team, is to be congratulated upon the fine showing and vast improvement. Line up:

THE NET RESULTS.

Wednesday of this week was a great day

for anglers at Occoquan creek, as a result of the diligent labors of the United States fish commission in stocking the Potomac river with big-mouthed black bass. Not only the main stream, it is said, but all of its tributaries, from the falls to lower tide water, are swarming with these magnifi-cent game fish. The weather was typical of an Indian summer day, and the bass

The game, from start to finish, was hotly matched. First one side and then the other would force the ball toward the opponent's goal, only to lose it on downs, and then the backward struggle would be repeated. The Business boys were fortunate enough to force the ball over the line for a touchdown in the first half, but after great rejoicing it was discovered that the time was ticked off with neither side scoring. In the second half the Westerns put new life into their work, and the Business boys were correspondingly depressed, but pluck-ily stuck to their work and so successfully that when time was called for the day neither side had the honor of being victors. The excellent work of Jones and Lance of the Business team was worthy of notice, while every member of the Westerns played
